

# ORACLE TRANSPORTATION CLOUD. READY FOR TAKE OFF.

## Oracle Software with PROMATIS Solutions

Award-winning Oracle transport process management software combined with reliable PROMATIS Best Practice solutions, project management processes, process models, templates, and services.

From the pioneer of the process-oriented introduction of Oracle enterprise software solutions: the Kickstart for integrated processes within the supply chain management.

## Why the Transportation Cloud?

The well-balanced industry solution offers a high-performance tool for managing all transport activities within the global supply chain.

The combination of user-friendliness and industry-specific functions enables a reduction in costs while at the same time optimizing service quality and automating the processes for an efficient and transparent logistics operation.

## Kickstart for process innovation!!

With the Kickstart offerings for the Oracle Applications Cloud, PROMATIS enables a smart entry into the use of application software services: fast, economical, low-risk. For a fixed price!

A pre-configured Oracle SaaS product suite with best practice business process models and proven PROMATIS implementation and training services.

## Kickstart Transportation Cloud

The PROMATIS Kickstart delivers a field-proven industry solution for manufacturers and trading companies that expand the digital value chain by automating their inbound and outbound transport processes while maximizing their efficiency.

## PROMATIS Best Practice Solution SCM

The PROMATIS Best Practice products are functional extensions for and adaptations of Oracle applications. The result is end-to-end, cross-company business processes that can be implemented economically and quickly in the company.

## Oracle Applications Cloud SCM

With its functional breadth and depth (including product innovation, strategic material sourcing, external manufacturing and integrated logistics), the Oracle SCM Cloud is a balanced and powerful solution. The functions can be implemented step by step, keeping risks to a minimum, lowering costs and maximizing flexibility. At the same time, clients benefit from constant functional innovations.
